Lecture and workshop format used to teach interpersonal communication, interviewing, and human relation skills (Carkhuff, Rogers, Ivey and Egan); taught Reality Therapy skills. Used video and audio equipment to supervise undergraduate human service majors.

GRADUATE ASSISTANT 1979 - 1981
University of Southern Mississippi, Hattiesburg, MS

Split Appointment: Department of Counseling Psychology, Graduate Assistant to the Director of the Counseling Psychology Laboratory (10 hours per week). Worked in control room monitoring video and audio equipment used to record counseling sessions; Dean of Students Office, Graduate Assistant to the Associate Dean of Students (10 hours per week). Worked as coordinator of services for disabled students.

ADJUNCT ASSISTANT PROFESSOR 1980
Department of Management, University of Southern Mississippi, Hattiesburg, MS

Taught Management 360: Fundamentals of Management for two semesters. Lecture and workshop format used in teaching management students leadership, interpersonal communication, interviewing and human relation skills.

CLINICAL ASSOCIATE 1978
Ridgeview Institute, Atlanta, GA

Worked in Adolescent inpatient unit consisting of 30 adolescents. Conducted individual counseling, served as team leader, developed treatment plans, lead over 80 hours of group therapy, assisted in school program and activity therapies.

MENTAL HEALTH ASSISTANT

1976 - 1978

Peachford Hospital, Atlanta, GA

Worked in Adult inpatient unit, then Adolescent inpatient unit which consisted of 14 adolescents. Orientation of the unit was Psychoanalytic within a highly structured milieu setting. Conducted individual counseling; co-led 500 hours of group therapy, 120 hours of art therapy, 100 hours of music therapy, and 50 hours of dance therapy. Co-therapist in over 250 hours of Structural Family Therapy. Developed token system/contingency management program for a suicidal and self-mutilating adolescent.

TRAINING EXPERIENCE

DOCTORAL INTERNSHIP IN CLINICAL PSYCHOLOGY ²

1986 -1987

Department of Psychiatry and Behavioral Sciences, College of Medicine, University of Oklahoma Health Sciences Center, Oklahoma City, OK

Doctoral internship of 2100+ hours in the practice of Clinical Psychology (10 interns). Internship consisted of three 4 month rotations: Psychological Assessment Lab (Neuropsychology), Outpatient Adult Psychiatry Clinic, and the Child Studies Center. Separate from the rotations, there were several other training experiences including the year long seminars (Psychotherapy, Family Therapy, Psychological Assessment, and Neuropsychology Case Conference), Primary supervision (year long supervision for long term therapy cases) and Secondary supervision (electives). Elected Chief Intern. Unique aspects of the internship training are described below:

Neuropsychology: Attended Neuropsychology Case Conference weekly for the entire year, presented cases on five occasions. Had a year long experience in administration, scoring and report writing with adults and children. Conducted one to two neuropsychological evaluations per week for **adults** on first rotation in the Psychological Assessment Lab. Supervision by Russell Adams, Ph.D. ABPP (Clinical Psychology and Clinical Neuropsychology) and Oscar Parsons, Ph.D. ABPP (Clinical Psychology and Clinical Neuropsychology). Conducted extensive neuropsychological clinical interviews. Used a "flexible battery" approach with the Halstead-Reitan Neuropsychological Battery as the foundation. Utilized the Neuropsychological Key approach. Other tests used included the Wechsler Memory Scale, Luria Memory Words, Recognition Memory Test, Rey Memory Test, Wisconsin Card Sort, Purdue Peg Board, Boston Diagnostic Aphasia Exam, Boston Naming Test, Thurstone's Verbal Fluency Test, Controlled Word Association Test, Bender-Gestalt + Cantor's Background Interference Procedure. Disorders assessed included head injury, epilepsy, dementia, Alzheimer's, delirium, aphasia, frontal lobe disorders, encephalitis, Organic Mental Disorder, CVA, TIA, premenstrual psychosis, Gerstmann Syndrome, MR, alcoholism, drug abuse, schizophrenia, major depression, malingering. Also conducted forensic evaluations. Conducted neuropsychological evaluations for **children and adolescents** for secondary supervision (second rotation) and during third rotation at the Child Study Center. Heavy emphasis on developmental neuropsychology and the neuropsychology of learning disabilities. Supervision by Jan Culbertson, Ph.D. Primarily used a flexible battery approach, utilizing the Halstead-Reitan Neuropsychological Battery for Older Children and the Reitan-Indiana Neuropsychology Battery for Younger Children as a foundation. Other tests used included the Detroit Tests of Learning Aptitude, Stanford-Binet IV, McCarthy Scales, Bayley Scales, K-ABC, Benton VRT.

Psychological Assessment: Attended year long seminar in assessment which included 24 hours on the Rorschach (Beck). Conducted personality evaluations on all rotations. **Adult** assessment included administering and interpreting MMPIs on inpatients in the Psychiatric Unit of Oklahoma Memorial Hospital during second rotation. Also conducted neuropsychological screenings, extended personality evaluations and Mental Status Examinations at the Outpatient Psychiatry Clinic. Disorders included schizophrenia, schizophreniform disorder, brief reactive psychosis, bipolar depression, major depression, dysthymic disorder, cyclothymic disorder, various anxiety disorders, personality disorders (borderline, histrionic, antisocial, schizotypal, schizoid, avoidant, dependent, mixed), transsexualism, sexual abusers. Conducted personality evaluations for **children and adolescents** at the Child Study Center. Disorders and problems included learning disabilities, ADHD, academic failure, sexual and physical abuse victims, conduct disorders, divorce adjustment, substance abuse.

Child Study Center: Dept. of Pediatrics: Conducted psychological and neuropsychological evaluations (see above). Received training in assessing and treating learning disabilities from a multidisciplinary team, including clinical and school psychologists, learning disabilities specialists, and physicians. Learning disabilities evaluations utilized a cognitive information processing approach. Saw children with a variety of medical conditions and received training in Pediatric Psychology. Conducted extensive evaluations for sexually and physically abused children using anatomically correct dolls. Supervision by Jan Culbertson, Ph.D., Jean Elbert, Ph.D. and Diane Willis, Ph.D., ABPP.

Psychotherapy for Depression: Received year long, individual supervision in Cognitive Therapy of Depression and Interpersonal Therapy of Depression from therapists who were part of the NIMH Collaborative Study for the Psychotherapy of Depression. Received intensive group supervision for Cognitive Therapy of Depression while on the

² Internship accredited by the American Psychological Association and meet the International Neuropsychological Society/Div. 40 (APA) criteria for an internship in clinical neuropsychology.

Outpatient Psychiatry rotation. Supervisors included Russell Adams, Ph.D. ABPP, John Watkins, Ph.D. ABPP, Edward Beckham, Ph.D., and Kay Goebal, Ph.D. Also received extensive supervision for cognitive therapy of anxiety disorders.

Family Therapy: Attended 2 ½ hour weekly seminar in which a therapist interviewed a family while other participants observed using video monitors. Supervision utilized telephone calls from the supervision team to the therapist. Participated as either therapist or member of supervision team. Received extensive training in Structural-Strategic and Systemic (Milan) Family Therapies. Also saw families in the Family Medicine Clinic in the Department of Family Medicine. Supervisor was Jeffrey Zimmerman, Ph.D.

CLINICAL CHILD AND FAMILY PSYCHOLOGY TRAINING 1982 - 1987 **Department of Psychology, Georgia State University, Atlanta, GA**

Doctoral training in Clinical Psychology with a specialization in Clinical Child and Family Psychology. Course work, in-house therapy, individual and group supervision, therapy in the community, psychological and educational testing, and research in marriage and family coordinated to give Clinical Psychologists a specialization with children, couples and families. Received training in a variety of therapy orientations while incorporating principles from developmental psychology. Training included Structural-Strategic Family Therapy, Functional Family Therapy, and Behavior Therapy with children and families. Presenting problems included juvenile delinquency, learning disabilities, child abuse, conduct disorders, Attention Deficit Disorder, academic failure, blended family issues, divorce adjustment, alcohol and drug abuse, severe marital conflict, marital separation, spouse abuse and battering. Cases were referred from the Domestic Crisis Intervention Project, the Juvenile Courts of Fulton County, Georgia State University, and other referral sources to the Atlanta community. Couples and families treated were from lower to middle SES, many of whom were from extreme poverty, and include a wide range of religious and racial backgrounds. Additional training in marriage and family enrichment using an interpersonal skills building and prevention model. All supervision at GSU was by licensed psychologists who are also AAMFT Clinical Supervisors. Supervision utilized videotape, audiotape, and one-way mirrors. Supervisors included Luciano L'Abate, Ph.D. ABPP, Michael Berger, Ph.D., Greg Jurkovic, Ph.D. Also received off campus one year of individual, weekly supervision from Frank Pittman, M.D.

PSYCHOTHERAPY TRAINING 1982 - 1986 **Department of Psychology, Georgia State University, Atlanta, GA**

Psychotherapy training, primarily eclectic in orientation, with a heavy emphasis in Psychodynamic and Interpersonal approaches. Conducted individual psychotherapy with adults in Psychotherapy Clinic housed in the Department of Psychology. Participated in a specialized sequence of coursework and weekly individual and group supervision by licensed psychologists. Supervision utilized audiotape equipment. Supervisors included Donna Billingsley, Ph.D., Earl Brown, Ph.D. ABPP, and Irma Lee Shephard, Ph.D. ABPP.

PSYCHOLOGICAL TESTING 1980 - 1986 **University of Southern Mississippi and Georgia State University**

Have had four semesters and four quarters of course work + practicum in administering, scoring, interpreting and writing up various projective and objective psychological tests. Also conducted evaluations for the Director of the Psychological Assessment Lab. Tests include MMPI, WAIS, WAIS-R, WISC-R, WPPSI, Stanford-Binet L-M, McCarthy Scales, Bayley Scales, K-ABC, Benton VRT, Wisconsin Card Sort, Rey-Osterreith Complex Figure Test, PIAT, PPVT, WRAT, Bender-Gestalt (Koppitz), CPI, EPPS, POI, 16PF, SCII, SDS, VPI, Vineland, AAMD-ABS, Rorschach (Exner), TAT, HTP, Family drawings, KTSA, sentence completion, early recollections. Additionally, training in behavioral assessment, DSM-III, and the assessment of marriages and families. Supervision utilized videotape and one-way mirrors. Supervisors included Ray Craddick, Ph.D. ABPP, Luciano L'Abate, Ph.D. ABPP, Martha Foster, Ph.D., Robin Morris, Ph.D. and Gary Jones, Ph.D.

MASTER'S INTERNSHIP AND ADVANCED PRACTICUM 1982 **Pine Belt Mental Health and Retardation Center, Hattiesburg, MS**

Full-time field internship, spring semester, and additional part-time practicum summer semester in Community Mental Health Center (550+ hours). Conducted individual psychotherapy with adult and adolescent psychiatric populations from lower to middle SES. Received training in Cognitive Therapy of Depression. Organized and/or conducted six behavioral weight control groups. Administered and interpreted various tests for Psychological Evaluations for various populations: adult psychiatric, elderly, M.R., and children with Department of Public Welfare who were to be adopted. Conducted intake interviews, staffed cases, made diagnoses, developed treatment plans. Conducted research for publication (see research paragraph). All the above was supervised by licensed psychologists; the primary supervisor was Beverly Sandifer, Ph.D.

COUNSELING PSYCHOLOGY PRACTICUM 1980 - 1982 **Dept. of Counseling Psychology, University of Southern Mississippi, Hattiesburg, MS**

Two semesters of formal practicum, under supervision of two licensed psychologists, continued caseload six more semesters, under supervision of Director of Counseling Center. Conducted over 180 hours of short- and long-term individual and family therapy with community and college populations including adults, adolescents and children. Used

variety of models and techniques, with heavy emphasis on Behavior Modification and Cognitive-Behavior Therapy (included relaxation training, systematic desensitization, Assertiveness and Social Skill Training, contingency management, cognitive restructuring and problem solving). Staffing included videotaped presentations; supervision utilized video and audio equipment.

GROUP THERAPY PRACTICUM

1980 - 1981

Dept. of Counseling Psychology, University of Southern Mississippi, Hattiesburg, MS

Conducted 48 hours of group therapy with three different groups. One group was for members of Parents Without Partners who had been without a spouse for two or more years. Other groups consisted of undergraduate and graduate college students. Additionally conducted several specialized groups for assertiveness skills, job interview training and communication skills. Supervision utilized video and audio equipment.
